

# ROMITORIO DI SERELLE

*To all our dear guests,*

*We have been experiencing moments of great difficulty and insecurity for some time now, trying to counter the Covid-19 pandemic that is afflicting the entire planet. The positive evolution of the situation in Tuscany allows us today to be able to foresee the reopening of our "Holiday Home" in Chianti for the next month of June.*

*Right now we are dedicating all our energies and resources to preparing ourselves to welcome you; gardens are lush, full of beautiful flowers and spring scents, the apartments have been prepared with our usual high standards of hygiene and cleanliness. The restaurant staff have already developed new tasty menus to offer you!*

*To all this we add the implementation of all suitable measures for the containment of COVID-19, as per the latest provisions by the Council of Ministers and the Tuscany Region. Our standards are therefore in line with the latest research and recommendations from the WHO and we will always take action for any new adjustments to make safe your holidays and our work.*

*This is how we thought about your summer vacation, offering you large open spaces, independent apartments, excellent food and wine in an environment of rare beauty that will allow you to find, in safety, a little peace and serenity. Our seriousness and the reputation we enjoy in the tourism sector are a guarantee of responsibility and quality.*

*Our guests tell, in their reviews, the "passion" that we put into our work, in all languages and with different words. We are happy, because we think that words like hospitality, care, attention and availability are not just an advertising message. We really like to listen to the needs of our guests and try to transform them into experiences to remember but we are also available to respect the privacy and solitude of those looking for just a place to rest.*

*We are waiting for you in "your" home in Chianti.*

*Marco, Lorella and Roberto*
